Introducing Stellic's Milestones

Stellic

Today's Agenda

- What are Stellic Milestones?
  - Types of Milestones
  - Impacts in the audit
- Milestones Demo:
  - Adding Milestones to an audit
  - Satisfying Milestones on a student

What are Milestones?

- Milestones are a new addition to the Stellic audit.
- They are specifically designed to address non-course requirements.
- While they are tracked within the same audit (potentially), they show as separate progress in the student's profile.

COURSES

28 TAKEN   2 REGISTERED   8 REMAINING

🚩 **MILESTONES**

1 TAKEN   4 REMAINING

Types of Milestones

- Check for something on the student:
  - There is some time of data that we are receiving or looking for specifically about the student (tags, GPA, etc).
- Manually satisfy a requirement
  - A Stellic user (student or admin) needs to come in and mark the requirement as fulfilled.

Checking for "something" on the student

- Cumulative GPA
- Minimum number of credits per term
- Residency hours
- Tag on a student record

Demo!

- Creating Milestones in audits (focus on "manually satisfy")
- Satisfying Milestones on students
